The motion carried unanimously.**

SPECIAL EVENT APPLICATIONS

There were no special event applications for the Board to consider.

Mr. Sires reported that Lynore Wagner of the Recreation Department will now be processing the applications for special events and presenting them to the Board for consideration.

BUDGET / WARRANT ARTICLES

Valley Vision - Mr. Sires reviewed that Valley Vision was going to present their budget to the Board today; however, this has been rescheduled for the next meeting. Mr. DiGregorio advised that Valley Vision has an appointment with their accountant and

would like to do this first before appearing before the Board and confirmed they will be here to present to the Board next week.

Garage – Mr. Sires reported on the application for a federal grant for \$200,000 toward the cost of the garage. Mr. Sires reviewed the grant requires engineered stamped drawings to be eligible for money from the government. Mr. Sires further reviewed there may be a problem to have all we need in time for the deliberative portion of town meeting due to the timing of the grant along with meeting/hearing dates etc for town meeting. Public Works Director, Paul DegliAngeli, advised that if we are eligible, it would be for up to 35% of total construction costs, but not more than \$200,000, whichever is less. Mr. DegliAngeli further reviewed timeline information and explained the town may not know if we will be getting the grant by the time we post the warrant. Mr. DegliAngeli gave further explanation of the process and why we need the stamped drawings, etc. Mr. DegliAngeli also advised that if we do receive and use federal grant money that all materials have to be American made due to the American Recovery Act. Mr. DegliAngeli and Mr. Sires next reviewed the town also needs to follow the bond process as well. Staff next recommended following the federal process as there is a good chance of getting the money and to draft an article in the range of \$550,000-\$600,000 with up to \$200,000 in grants. Mr. Sires reviewed the article is going to have to say a total project amount – an amount up to – with money offset by money raised by the grant. Mr. Dickinson stated that he is concerned about Davis-Bacon rates if we receive the federal grant and questioned if all contractors work on these types of rates. There was discussion by the Board regarding Davis-Bacon, the Federal Grant, bonding, timelines and warrant article language.

Mr. Drinkhall advised that the Garage Committee does not meet again until February 2 and he does not know how they will feel about the issues discussed today. Mr. Martin stated he feels the committee has done their job and given this Board their recommendation and because of time this Board must make a decision. Mr. Drinkhall advised that he could reset the meeting of the Garage Committee as they did not have this most recent information and he does not think it is fair to the committee. Mr. DiGregorio asked what would change for the committee. Mr. Drinkhall stated they still haven't made final recommendations. Mr. Martin questioned if Mr. Drinkhall could call and poll the members of the Garage Committee and get their feeling on the matter.

Mr. Martin asked if Mr. Drinkhall could call and poll members and get their feelings. Mr. Drinkhall agreed but added that if they want a meeting it will only delay things another week. Mr. Dickinson suggested crafting a warrant article with language that Mr. Drinkhall could read to his committee members to they could get an idea. Mr. Sires advised that the Town is waiting for the DRA to get back to use with the proper language for a warrant article. There was further discussion. The Board agreed to wait for the language from the DRA for the warrant article first before proceeding.

Mr. Sires next reviewed that we received a letter of engagement from bond counsel.

Mechanic Street – Mr. Sires reviewed there were questions recently concerning removal of the snow, sidewalk maintenance, etc. Mr. DegliAngeli reviewed the Town had not been maintaining sidewalk at Mechanic up to that time and had to remove the snow and apply deicing agents. The town is maintaining this area from here on out and had needed to catch up on the maintenance. Man hours could be supplied if that is

what the Board would like to see. There was discussion with the Board. Mr. Drinkhall felt it could it have been picked up the next time we picked up snow. Mr. DegliAngeli advised this would have cost more and the way we did it was the most cost effective.

### TOWN MANAGER REPORT

Courthouse Property – Mr. Sires reviewed the Board has a motion pending on the table regarding the Courthouse property and reviewed same. The motion is as follows. *Mr. Drinkhall moved, seconded by Mr. Weathers, that we transfer the property as stated and the additional property as requested on the plan to equal one acre at no cost to the town whatsoever and fair market value of the additional property. (Tabled by Mr. Dickinson).* Mr. Sires advised he has conveyed information as requested by the Board to the state and the state has advised they will not pay for any additional property. The Board discussed amending the motion and applying to the DES for subdivision. The Chair declared the motion off the table. **Mr. Drinkhall amended the motion, seconded by Mr. Weathers, to transfer the plan and apply to DES for subdivision. The motion carried unanimously.**

**Mr. Weathers moved, seconded by Mr. Dickinson, to direct staff to contact DES regarding the subdivision. The motion carried unanimously.**

There was a meeting with Time Warner a couple of weeks ago and they advised they did not like a couple of things in the proposed contract and we have sent these items to our legal counsel. We did receive a response from counsel on same but have not had a chance to review and discuss same and a meeting will be scheduled in the near future.
