24	2. Health Insurance
25	► Health insurance rates are calculated at a projected 12.73% increase, with hope of a lower
26	actual rate.
27	• With the tentative CESP agreement all employees within SAU #9 are on the same health
28 29	<ul><li>insurance plan. This gives the negotiating parties leverage with insurance companies.</li><li>3. Collective Bargaining Agreements</li></ul>
29 30	<ul> <li>CEA (Conway Educators Association), \$315.516 is the estimated increase for the 3<sup>rd</sup> year of</li> </ul>
31	their contract.
32	<ul> <li>CESP (Conway Educational Support Personnel) has reached a tentative agreement for a new</li> </ul>
33	3-year contract.

45	contract.
46	► A benefit card will be phased out over 3 years.

48 49	insurance waivers)

ADOPTED

50	Questions/ Comments
51	• Mr. Marvel asked if the reduction is a one-time savings. Mr. Richard advised it would not
52	be so long as the insurance remains at the lower premium.
53	• Mr. Edgerton stated the time has come when it has become prudent and morally correct to
54	close a school. He suggested closing JFS based on the declining enrollment and not serving
55	another town, which makes it difficult to financially support. Mr. Richard noted there is
56	declining enrollment and they have been reducing and reconfiguring staff using multi-age
57	classrooms.
58	5. Warrant Article 7 – Project SUCCEED

78	preschool, each unit level, and out of district placements. It will become clear when going
79	thru the budget line by line.
80	• Mr. Marvel asked how many new staff members the Sp. Ed. department. Mr. Richard
81	directed the board to Appendix B which shows all employees of the district. Further, noting
82	that any position noted as "vacant" are still in the budget as they are being recruited for and
83	contracted services are being utilized, which are more costly. Mr. Marvel inquired if that is
84	why there are 334.5 full-time positions with fewer people. <b>Mr. Richard</b> stated that is correct.

169	• Chair LeFebvre asked Mr. Richard to explain the ESSER funds. Mr. Richard provided an

176	• Ms. Sand asked what the issues are with the windows and if there are other priorities. Mr.
